3ROTIX UI + Integration TODO

Today

- ☐ (pick 1–3 items only)

This Week

- ☐
-

Phase 0 — Lock the spine

- ☐ Make Homebase default post-login landing (/homebase)
- ☐ Enforce one canonical Auth flow
- ☐ Enforce one canonical Prisma client + one canonical Supabase client
- ☐ Enforce XP only via centralized service
- ☐ Enforce Socket.IO security (verify JWT on connect)

Phase 1 — App Shell

- ☐ Build AppShell (Topbar + Nav + RightDrawer)
- ☐ Mobile bottom nav: Homebase / Explore / Drops / Inbox / Me
- ☐ Desktop left nav: same items
- ☐ Add Profile Chip (avatar + level pill)
- ☐ Add Quick Action “+” button (context-aware)

Phase 2 — Homebase

- ☐ Squad list + Chat panel + Squad info panel
- ☐ Create/Join Squad flow
- ☐ ProfilePeekCard on username in chat
- ☐ Message actions: reply/react/share (tip later)
- ☐ XP toast wired to chat events

Phase 3 — Inbox

- ☐ /inbox tabs: DMs / Mentions / Activity / Rewards
- ☐ Unread filters + mark read
- ☐ Notifications deep-link to exact thread/drop/profile

Phase 4 — Profiles

- ☐ /c/[handle] public profile
- ☐ Profile sections: header/about/featured/drops/offers preview
- ☐ DM button opens thread (not separate “messaging app”)
- ☐ Boundaries block (rules / opt-ins)

Phase 5 — Drops

- ☐ /drops global feed
- ☐ DropCard + share to Squad/DM
- ☐ Post types: text / image / clip
